CAPITOLIS

Job Description: **Front End Engineer**

About Capitols

Capitolis is a pioneering technology provider for the global capital markets. Founded by key industry executives from banking and financial technology, Capitolis plans to introduce in 2018 new products and services to address capital markets constraints, initially in equities and foreign exchange. It will employ Capitolis' expertise in finance, distribution and processing to better connect appropriate capital with the best collaborative solutions to clients all over the world.

We are a young startup located in the heart of Tel Aviv, New York City and London. We are in the business only for the past year, but we are already heavily backed by the leading VCs: Sequoia Capital and Index Ventures.

We are excited to grow the team! We are looking for talented, smart and creative people to join our R&D center in Tel Aviv and help us lead the path and make an impact on the global financial market.

Role description

We are looking for an experienced Front End Engineer who would be excited crafting a beautiful UI using React.js and CSS3, HTML5
A true team player who is eager to be part of a very unique opportunity in the startup scene.

Responsibilities

- Create high quality responsive UI application.
- Apply web standards for accessibility, responsive design and support all browsers/devices.
- Sharing knowledge as well as leading correct technological processes.
- Work closely with designers, developers and QA.

Requirements:

- At least 3 years of experience with a popular front end JavaScript framework (Backbone/Angular/React/Ember).
- Solid and deep knowledge of CSS3, HTML5 and ES6/JavaScript.
- Experience in React-Redux or equivalent store management library like Mobx.
- At least 1 years of experience with React.
- Familiarity with modern frontend builds pipelines and tools such as Babel, Webpack, NPM, etc - Advantage.
- At least 2 years of experience with Node.js or any other backend web framework – Advantage.
- Knowledge of front-end CSS frameworks like Bootstrap, Material UI - Advantage.
- Self-learning, independent and communicative.
- Detail oriented and highly responsible.
- Bachelor's degree in Computer Science or equivalent.

Location: Azrieli Building, Round Tower, Tel- Aviv
